DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group 1, claims 1-16, drawn to a mail sorting stand.
- Group 2, claim 17, drawn to a support bracket.
- Group 3, claims 18-20, drawn to a tray or bin.
- Group 4, claims 21, drawn to a segment.
- Group 5, claims 22-23, drawn to a method of constructing a stand.
- Group 6, claims 24-25, drawn to a method of deconstructing a stand.

The inventions listed as Groups 1-6 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features. That is, there are no special features uniting all of the different claim groupings, thus the inventions are not properly linked.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
